Profile Summary

Highly motivated computer science student at Princess Sumaya University for Technology with a GPA 79.1% (Very Good). Skilled in building scalable web applications using ASP.NET Core & Angular. Seeking for an internship or junior role to contribute to real projects and grow in a collaborative, innovative environment.

Education

Princess Sumaya University for Technology, Amman, Jordan

B.Sc. in Computer Science (Expected Graduation: 2026)

GPA: 79.1% – Very Good

Relevant Coursework:

- Visual Programming: Built .NET Windows Forms applications with SQLite integration.
 - Database Systems: Hands-on experience with relational databases. MySQL, SSMS.
 - Object-Oriented Programming (OOP): Practiced OOP concepts in C++.
 - Mobile App Development: Developed Android apps using Flutter, Dart, and Firebase.
-

Technical Skills

Programming Languages:

C++, C#, Dart, JavaScript, TypeScript, SQL, HTML, HTML5, CSS

Frameworks & Technologies:

.NET Framework, ASP.NET Core, Angular (components, services, routing, reactive forms, reusable directives), Bootstrap (responsive design), RESTful APIs

Databases:

Oracle SQL, Microsoft SQL Server, SQLite

Development Concepts & Tools:

Object-Oriented Programming (C++, C#), Clean Architecture, DTO Patterns, Dependency Injection, Git & GitHub, Time & Space Complexity Analysis, Data Structures & Algorithms (C++).

Certifications & Courses

Full-Stack Web Development (ASP.NET Core + Angular) - 2025 — *Consultation and Training Center, Princess Sumaya University for Technology (2025)*

- **Backend (C# / ASP.NET Core)**
 - Built RESTful APIs with ASP.NET Core and Entity Framework.
 - Applied DTO patterns, dependency injection, and HTTP methods.
 - Integrated Microsoft SQL Server using Code First & Database First approaches.

- Practiced Git for version control and project collaboration.
- **Frontend (Angular / HTML / CSS / JavaScript, TypeScript)**
 - Built responsive web pages using HTML, CSS, and media queries.
 - Developed Angular components with TypeScript, applying data binding, directives and lifecycle hooks.
 - Implemented routing, reusable components, and reactive forms with validation to create Single Page Applications (SPA).
 - Integrated REST APIs with Angular HttpClient, RxJS observables, and services; applied interceptors for token handling.
 - Applied pipes (built-in and custom) for data formatting and transformation.

Projects

MediBook

- Designed a mobile app for booking doctor appointments.
- Developed UI in Flutter & Dart; handled data using Firebase & JSON.

Pharmacy System

- OOP-focused desktop application using C++ to manage pharmacy inventory.

Book Store Website

- E-commerce site built using HTML, CSS, PHP, and JavaScript.
- Features include stock management and customer order tracking.

Languages

- Arabic: Native
- English: Advanced
- Turkish: Good
