Profile

Final-year Computer Science student skilled in ASP.NET full-stack development and Flutter mobile apps. Azure AZ-900 certified with strong problem-solving and coding abilities. Seeking a Software Development internship to apply my skills and gain real-world experience.

Education

10/2022 – 06/2026
Amman, Jordan **Computer Science**
Princess Sumaya University for Technology
Relevant Coursework: Data Structures & Algorithms, Web Development, Mobile App Development, Database Systems, Operating Systems, Cloud Computing

Experience

06/2025 – 10/2025
Amman Jordan **Web development Tutor**
NONERDS
Tutored the Web Page Design and Internet Programming course at PSUT covering front-end and back-end development using HTML5, CSS3, JavaScript, PHP, and MySQL. Guided students in building responsive, interactive, and accessible web applications following modern web development practices.

Skills

Languages C#, JavaScript, C++, C, Python, Dart	Cloud & DevOps AWS (EC2, S3), Azure AZ-900, Git, GitHub	Databases MySQL, MongoDB, Microsoft SQL Server
Frameworks & Libraries Angular, ASP.NET Core, React, React Native, Flutter	Backend & APIs RESTful API Development, Entity Framework Core, PHP	Tools & Concepts LINQ, JWT, Swagger/OpenAPI, Angular Material

Projects

Readers Bookshop

Tools: HTML, CSS, JavaScript, PHP, MySQL

Developed a full-stack bookshop website for a webpage design course, featuring a responsive interface, secure user authentication, and database integration to manage books, users, and orders. Included key features such as browsing, shopping cart, and order processing to deliver a complete e-commerce experience.

Pharmacy Management System

Developed a Pharmacy Management System for my OOP class, applying core object-oriented principles such as inheritance, encapsulation, and polymorphism. Designed modular, reusable classes to manage inventory, sales, and customer data, ensuring maintainability and scalability of the system.

Restaurant Reservation App

Developing a cross-platform mobile app that allows users to easily book tables at restaurants. Focused on creating an intuitive interface, real-time reservation management. (CURRENT)
